ARUN G JOSE

Kerala, IN | www.linkedin.com/in/arungjose
+917907190449 | arunjose2004@gmail.com

Motivated Computer Science engineering graduate with strong analytical, programming, and object-oriented design skills, seeking an opportunity to contribute to software application development. I have won a hackathon and also worked as a team leader for multiple group projects, and also published research papers.

PROJECTS

CYGNUS: AN EXOPLANET CLASSIFIER - *https://github.com/arungjose/exoplanet_koi*

Developed and deployed a backend ML pipeline using Random Forest on NASA's Kepler Object of Interest (KOI) dataset to classify exoplanets vs. false positives, leveraging stellar and orbital parameters. Engineered data preprocessing and feature extraction workflows to improve model reliability and interpretability across large real-world datasets.

AXOLOTL – AI POWERED COGNITIVE TRAINING PLATFORM - *https://github.com/Adarsh-S-kmr/Axolotl*

Developed an AI-powered adaptive cognitive training application integrating AI-driven coaching, reinforcement learning, and personalized gameplay to dynamically adapt training based on user performance. Built interactive cognitive mini-games, performance analytics, and an adaptive recommendation system to deliver personalized training experiences.

AI ENHANCED TRAFFIC MANAGEMENET NETWORK - *https://github.com/arungjose/trafficnetwork*

Developed a distributed traffic control system powered by YOLOv11 and OpenCV for real-time vehicle detection, enabling adaptive and autonomous signal coordination. Architected scalable inter-junction communication using Socket.IO, containerized with Docker, and deployed on Google Cloud to handle multi-node data exchange reliably.

EDUCATION

B. TECH – COMPUTER SCIENCE & ENGINEERING
- CGPA: 9.22/10
APJ ABDUL KALAM TECHNICAL UNIVERSITY
November 2022 – May 2026
Organizer and Facilitator of college Coding club, Member of IEEE SB, TinkerHub and Mulearn.

SKILLS

- **Python**
- **SQL**
- **Java**
- **Git**
- **C lang**
- **GDScript**
- **Flutter**
- **Django**
- **C++**
- **Docker**
- **JavaScript**
- **Google Cloud Platform**
- **IPFS**
- **Leadership**

ACHIEVEMENTS

- Secured First Place in a hackathon conducted by Srishti Innovative Pvt Ltd at Technopark, demonstrating strong problem-solving and innovation skills.
- Received the Best Research Paper Award at the International Conference on Smart Computing, Artificial Intelligence and Data Engineering (SCAD 2026) for outstanding research contribution.
- Presented and published a research paper at the International Conference on Robotics and Mechatronics (ICRM 2025) under IEEE.
